# After this introduction to ChatGPT, you will ...

- **Observe how to ask simple questions using the free, web-based version**
- **Understand how ChatGPT may be helpful in your everyday life**
- **Learn about account options**

# What is ChatGPT?

- **It's a website and an app**
- **You type a question**
- **It types back an answer**
- **It uses everyday language**

# Think of It Like This:

- **A very patient helper**
- **Available anytime**
- **You can ask almost anything**
- **You stay in control**

# What It Is NOT:

- **NOT a replacement for medical providers, attorneys or family**
- **It's not watching you**
- **It's not judging you**
- **It's NOT always perfect**

I'll demonstrate ...

I have chicken,  
rice, and  
broccoli. What  
can I make?

**Let's try another question ...**

# Account Options

# Free WebSite

A way to use ChatGPT from your browser without signing in.

**CHATGPT.COM**

## Pros

- Zero setup — just open a web page
- Great for a quick try-out
- Cost = \$0

## Cons

- You can't save chats
- Usage will be very limited and slower responses
- Fewer features than with an account
- Ads

# Free Account

Your own ChatGPT account you set up with Apple, Google, email or phone. Can login via web or use the ChatGPT app.

## Pros

- Saves your chat history
- Includes most everyday features like web search, voice support, images and basic uploads
- You can organize your chats

## Cons

- Reasonable limits on how much you can use per time period
- Responses may be slower during peak hours
- Ads

# Paid Account (ChatGPT Go!)

A subscription plan - \$8 per month that upgrades your experience. Can login via web or use the ChatGPT app.

## Pros

- Faster responses — less waiting
- You can ask more questions and stay in longer chats
- Expanded tools — better image creation, research, uploads, and custom assistants

## Cons

- Monthly cost — worth it mostly for enthusiasts or heavy users
- Some features are advanced and may not matter for casual use
- Ads
